

TERMINATOR *Kit*

To carry out my extermination program, it is not necessary to change your diet or stop eating. However, it is important to remember that microorganisms prefer sugar, flour and all processed foods. Clean eating can only help you.

INSTRUCTIONS FOR CHILDREN

Take all 4 formulas 10 minutes BEFORE your largest meal of the day, preferably on an empty stomach. Always dilute liquid formula in 4 fl oz (120 ml) of water, juice, or non-dairy milk. Consume in small sips instead of all at once. You can add a little Stevia in liquid or powdered form to improve the flavor

Eat 10 minutes after taking the formulas.*

*This treatment is recommended for children ages 6+ under parental supervision.
